

Amsler grid

Instructions

- Hold the grid 14 inches (about 36 centimeters) in front of you in good light.
- Use your corrective glasses or reading glasses if you normally wear them.
- Cover one eye.
- Look directly at the center dot with your uncovered eye.
- While looking at this dot, determine whether all of the lines of the grid appear straight, uninterrupted and have the same contrast.
- Repeat the above steps with your other eye.
