

# OhioHealth Grant Medical Center Geriatric Medicine Fellowship

## Geriatric Medicine Rotations All blocks equal 4-weeks

**Grant Inpatient Geriatric Consults (4 blocks)** Providing training and experience in providing geriatric consultation services to patients in a hospital setting.

**Gerlach Senior Health Center (3 blocks)** Exposure to a continuity panel of long-term care (LTC) patients and block experience in skilled rehabilitation, unit patient care, and wellness.

**Practice of Geriatrics with Central Ohio Geriatrics (.5 block and a longitudinal half day per week)** Comprehensive experience that includes the basics of geriatrics with fundamental considerations towards patient care and community health initiatives in local elderly populations. Fellows will provide care at Central Ohio Geriatrics skilled nursing facilities in the Columbus and surrounding area.

**MedOne Hospital Physicians (.5 block)** - Offers exposure to LTC patients from an acute standpoint system wide. Fellows will rotate directly alongside post-acute physicians within various environments.

**Grant Inpatient and Riverside Inpatient Psychiatry (1 block)** Exposure to psychiatric illnesses affecting older adults in inpatient and outpatient consultation settings.

**Physical Medicine and Rehabilitation (1 block)** Experience that focuses on how rehabilitation medicine can enhance and restore functional ability and quality of life for our aging population.

**Geriatric Sub-Specialty (1 block)** Provide the geriatric medicine fellow with the knowledge and exposure subspecialty areas including inpatient wound care, movement disorder clinic, and community resources for the older adult and their families.

- 1) Wound Care
- 2) Movement Disorders
- 3) Alzheimer's Association
- 4) Central Ohio Agency on Aging Adults

**Palliative Care (.5 block)** - Exposure to a variety of models of palliative care in the inpatient and outpatient settings.

**Hospice Kobacher (.5 block)** - Exposure to a variety of models of hospice and palliative care, in the inpatient and outpatient settings.

### Elective Opportunities (1 block)

- 1) Urology-gynecology
- 2) Neuro-psychiatry sessions
- 3) Musculoskeletal Exams
