

Cardiovascular Disease Prevention and Lipid Clinic

Setting New Standards For Care

Scott Merryman, MD
Family Medicine

Scott Merryman, MD, a clinical lipidologist, is the director of the Cardiovascular Disease Prevention and Lipid Clinic. He is also a Diplomate of the American Board of Clinical Lipidology.

Kavita Sharma, MD, FACC
Cardiologist

Kavita Sharma, MD, FACC, also a Diplomate of the American Board of Clinical Lipidology, is a cardiologist who specializes in clinical lipidology.

OhioHealth offers a clinic for treating patients with elevated blood lipids who have been resistant to standard therapy or have experienced intolerable side effects from cholesterol-lowering medications.

Our experts focus on high-risk groups including:

- + Familial hypercholesterolemia
- + Women with pregnancy-related lipid issues
- + Those whose family histories put them at risk
- + Transplant recipients
- + Elevated triglycerides
- + HIV-related lipid problems

Services include:

- + Advanced lipid management
- + Advanced risk assessment
- + Apolipoprotein (B)
- + Behavioral medicine
- + Carotid intima-media thickness ultrasound assessment
- + Coronary artery calcium scores
- + Lipoprotein (A)
- + Lipoprotein genetic testing
- + Measurement and interpretation of LDL and HDL particle numbers

Dr. Merryman and Dr. Sharma, utilize a team approach, working with nurse practitioners and pharmacists, in providing expert care to patients with elevated blood lipid levels who have not responded to standard therapy.
