SPINNING® at McConnell

The Spinning program welcomes participants of all fitness levels.

Spinning is a high intensity, low impact aerobic workout that is an individually paced group training class.

The instructors will coach participants to achieve a fun, safe and challenging workout.

Each bike is equipped with an adjustable resistance knob, which allows each participant to select their own level of intensity.

The intensity of the workout is influenced by several things:

- cadence or pedal rate
- resistance of the bike's flywheel, which can be continually adjusted throughout the class to make pedaling easier or more difficult
- the rider's body position, as they either ride from the seated position or rise from the saddle

All classes include a warm-up, cool-down and stretching.

Intro to Spinning® –

This class is recommended for the new spinner. During the class, the instructor will explain bike set up, standard positions and transitions, safety & stretching. Participants will only spend a portion of the class riding. Handouts will be provided.

Please bring a water bottle.

These classes are offered at 6:15pm on the following Wednesdays: 4/4 & 5/2

Express Spinning® –

This is a 30 minute mixed level class.
