

Wellness on Wheels

Mobile Primary Care

The Wellness on Wheels (abbreviated as WOW) mobile unit is part of OhioHealth's community outreach program. It is the result of a collaborative effort among healthcare leaders and care providers to improve access to healthcare in some of the most under-resourced communities of Columbus.

When we describe WOW as a mobile unit, it is exactly that. The clinic resides in a semi-truck where the driver also serves as the registration associate. The three locations for the primary care WOW are Hilltop, Van Buren, and Linden.

Resident Involvement

Second year residents rotate through WOW on their community medicine month. Residents can apply for a continuity position on WOW after intern year. When they are granted this position, they have WOW clinic built into their schedule throughout the academic year.
