

Residency Curriculum

Residency Program Highlights

- Unique opportunity to train in multiple settings – Urban setting at a Level 1 trauma center at Grant Medical Center, Community-based setting at Doctors Hospital, and University setting at The Ohio State University.
- 100% (first time) board pass rate for past 15 years.
- 100% postgraduate placement (employment or fellowship). Fellowship placements in Maternal Fetal Medicine, REI, and Women's Global Health.
- Comprehensive-clinics. Including General OBGYN, Maternal Fetal Medicine, Urogynecology, and Gynecologic Oncology.
- Intensive four-year OBGYN ultrasound curriculum.
- Extensive surgical exposure focusing on laparoscopic, robotic, and vaginal surgeries with a formal DaVinci robotic training curriculum.
- State-of-the-art simulation lab with laparoscopy, hysteroscopy, ultrasound, advanced patient simulation, and DaVinci robotic training.
- Annual clinical anatomy review course with cadaver dissection.
- Faculty Mentorship Program- Family-like environment with dedicated staff to encourage critical thinking, and the development of clinical and surgical skills. The paired mentorship will help residents navigate professional development, work-life balance, and placement after residency.

Didactics

- Protected education time:
 - Daily education, including group discussion of textbook chapter readings, practice bulletins, committee opinions, review of current evidence-based articles.
 - Formal three-hour block on Wednesday mornings – including Simulation lab, Mock Oral board preparation, Ultrasound training, Guest lectures, OMM Lab, Morbidity and Mortality conference, Journal Club, Fetal Heart Rate tracing review, and Quality Assurance sessions.
