

Prepare for Your Visit

Before your surgery with an OhioHealth Physician Group general surgeon, you will need to come in for a pre-procedure visit. Your surgeon will do an examination and give you information about your upcoming procedure and the recovery period.

Our entire staff works as a team to answer your questions, make necessary arrangements and assure that you and your family feel prepared.

Over the weeks following your surgery, you will also have follow-up visits to assess how you are healing.

Please bring the following with you to your appointment:

- + Current insurance card(s)
- + Photo ID
- + A list of current medications and dosing instructions or the medicine containers
- + Co-payment (if required by your insurance company)
- + Referral paperwork from your primary care physician, including previous lab or X-ray results (unless given direction otherwise)

Appointment Cancellation Policy

If you must cancel your appointment, we'll be happy to reschedule at a more convenient time. We ask that you give us 24 hours advance notice, providing an opportunity for another patient to be seen.
